Southwest Electric Services

▶ Switchgear ▶ Transformers ▶ Industrial Motors ▶ Field Services

Switchgear Solutions

Our experienced electrical switchgear staff provides a range of flexible solutions, whether you're looking for new switchgear or hoping to repair or refurbish your existing equipment. Combined, our team has more than 325 years of engineering, manufacturing, and field experience.

We specialize in custom or non-standard switchgear, and we use best-in-class components to optimize both cost and performance. This focus on custom solutions means we can offer unmatched flexibility in finding the best fit for your needs.

Transformer Manufacturing

Southwest Electric Co.'s Specialty Transformer Division specializes in the design and manufacturing of liquid-filled transformers (both standard and custom-designed), from 25 kVA up to 7500 kVA.

Our skilled team of electrical and mechanical engineers has decades of experience designing transformers for a wide range of applications, including:

- ▶ Oil and gas down-hole equipment (including submerged pumps with variable speed drives)
- ▶ Surface pumps
- ▶ small utilities requiring distribution-style transformers in pad-mount and pole-type configurations
- ▶ Industrial clients

We design and test each unit in-house to meet all industry standards, including IEEE, ANSI, NEMA, UL, and C-UL.

Industrial Motors

Southwest Electric Co. provides integrated electric motor solutions for a wide range of industries, including utilities, oil and gas, manufacturing, and more. Our highly skilled team provides superior technical innovation, problem-solving and project management to satisfy all your industrial motor needs.

We offer both standard and custom motors configured to your specifications, all at very competitive prices. Our extensive supply of in-stock motors reduces lead times to keep your operations running.

- ▶ New Electric Motors
- ▶ Large Electric Motor Repair
- ▶ Spare Motor Maintenance & Storage

Field Services

For more than 70 years, Southwest Electric Co. has been committed to providing innovative solutions and exceptional service for our customers. We don't want to simply sell you a product—we want to build a lasting relationship. To better serve our customers, we offer a wide range of national field services for switchgear, industrial motors, and transformers.

- ▶ Switchgear Field Services
- ▶ Industrial Motor Field Services
- ▶ Transformer Field Services
- ▶ Substation Maintenance & Service

Southwest Electric Offers Custom Solutions

At Southwest Electric Co. we offer innovative, site-specific solutions to meet the evolving needs of our broad customer base. Our experienced staff thinks outside the box to offer the optimum custom solution for your specified needs.
